

# Roma Street station customer parking

The parking and setdown and pickup zones at Roma Street station are shared by coach terminal and rail customers. Due to the increased activity in this area, we recommend customers allow more time and plan their journey in advance, including booking parking if required. Customer setdown and pickup is located on Parkland Boulevard and the station is accessed via escalators and a lift. There are three accessible setdown and pickup bays, and two taxi bays on Parkland Crescent outside the long-distance train platform.

Extended customer parking is available at the Brisbane City Council operated College Close car park and the Cornerstone car park on Parkland Crescent. Car parking rates are set by the operators and we recommend customers check rates ahead of arrival.
