

The Kuranda Scenic Railway journey you are taking today is through ancient World-heritage listed rainforest, the Wet Tropics.

We acknowledge the Djabugay Bama, First Nations people, whose culture is entwined with the land you are travelling through. The waterways were created by Gudju Gudju the rainbow serpent who took the form of Buda-dji the carpet snake. In his travel, Buda-dji traded nautilus shells for half-moon bicornual baskets on the tableland, creating the Barron River and its waterways.

The strength and identity of the Djabugay Bama law and lore live and breathe through these creation stories and Bulurru the spirit. We pay our respect to Elders past, present and emerging.

Gabun-gabun galin – go safely.

We acknowledge the Traditional Owners of the lands we traverse.

We pay respect to Elders past, present and emerging. We acknowledge their spiritual connection to the lands and waterways and ask their ancestors to watch over us as we tread lightly on Country.
